

JENIE FAWCKNER

About the Artist

JENIE FAWCKNER

An Australian contemporary artist working with oils and oil based printmaking. Jenie grew up living and working on her parent's sheep and cattle property in Central Western Queensland. Jenie studied full time at The Queensland College of Art and graduated in 1990 with a Bachelor Degree in Fine Art. She has lived, worked and practised art in regional Queensland for over 20 years. Jenie now resides on a farm at Hampton north of Toowoomba where she is a full time Artist practising from her purpose built painting and printmaking studio.

Jenie paints and screen prints with a unique colour pallet in tune to the subtle and ever changing seasonal landscape around her. Jenie uses her exposure to the Australian landscape and field trips to evoke constant inspiration and ideas.

ARTIST STATEMENT

"A creative and rural upbringing has formed an ongoing fixation with the colour, composition and natural beauty of the Australian landscape. This has proved to be a very strong base for the subject treatment in my work. I am consistantly drawn to the freedom of mark making and love of texture and use this approach to form a large part of my artistic process in both my painting and printmaking. To take a simple or insignificant scene from my natural surroundings and present it artistically in a way that gives it relevance and appeal teaches me to stop and appreciate every little aspect of nature."
